Dan Patrick Endorsed by Texas Patriots PAC

"The most effective leader in Texas politics..."

HOUSTON, TX – Lt. Governor Dan Patrick announced today that he has been endorsed by the Texas Patriots Political Action Committee. The PAC released the following statement:

"Dan Patrick continues to be the most effective leader in Texas politics. Patrick's conservative Texas Senate passed Election Integrity, the Heartbeat Bill, banned Critical Race Theory in schools, and funded border security, all in the last legislative session."

The Texas Patriots PAC's mission is to educate and organize citizens regarding public policy and founding principles, and to support the election of local, state and national candidates who share their core values. Since becoming a PAC, they have been called one of the most effective, well-organized tea party groups in the State of Texas and "a force to be reckoned with" in Montgomery County elections.
